About Solis BioDyne

Founded in 1995

Leading stable PCR reagent supplier

Trusted trademark in 110+ countries

ISO 9001 and ISO 13485 certified

We help scientists solve their greatest challenges by creating world-changing molecular solutions. Users around the globe value the high quality of our enzymes and mixes.

Commitment to quality

Quality has always been the core value of our work. To ensure we meet your quality requirements in Research and Diagnostics, we implemented and follow ISO standards.

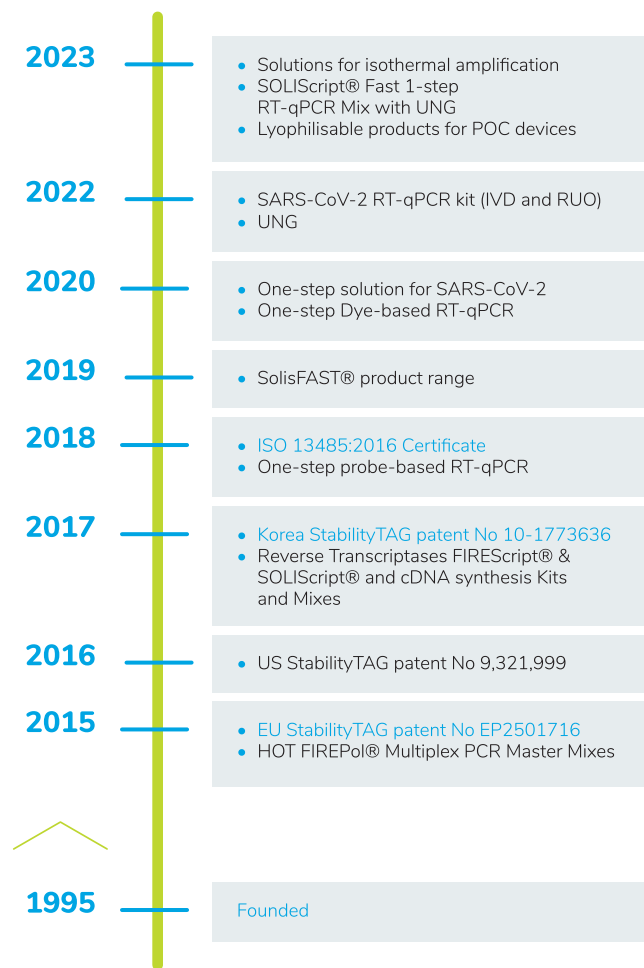

- Proven lot-to-lot consistency and high quality
- Total control over manufacturing process
- Supply chain security and traceability
- Manufacturing process consistency

Our expertise fields

- In silico protein design
- Protein production and purification
- Assay and product design
- Production of solutions for reverse transcription, PCR, qPCR, and LAMP

25+ years of experience in protein design and production on an industrial scale

Product Portfolio

DNA polymerases	Endpoint PCR	qPCR	Reverse transcription
<div>FIREPol® HOT FIREPol®</div> <div>TERMIPol® HOT TERMIPol®</div> <div>SolisFAST®</div>	<div>Regular PCR Master Mixes</div> <div>HOT-start PCR Master Mixes</div>	<div>Dye-based qPCR Mixes</div> <div>Probe-based qPCR Mixes</div>	<div>Reverse transcriptases</div> <div>cDNA synthesis kits and mixes</div> <div>One-step RT-(q)PCR kits</div>

Custom Solutions and Contract Manufacturing

Bulk product	Unique formulations	Custom product size and format	Custom product design and R&D
--------------	---------------------	--------------------------------	-------------------------------

Reference:

“ Excellent product quality along with affordable prices and committed customer service: these are the reasons why Solis BioDyne is our strategic enzyme supplier since many years. Now we continue our partnership with the robust, stable and very sensitive SolisGreen mixes for our qPCR product platform. ”

DAVIDE ROASCHIO
Scientist in Product Development
Loewe Biochemica GmbH, Germany

Sharing 25+ years of expertise for your success

In every step of the process you are supported and consulted by a Technical Support Team. From choosing the right product to protocol optimization, you can be sure we help to overcome technical hurdles.

Feel free to contact us, to find the most effective way for your scientific success: info@solisbiodyne.com.

Sustainability is the key priority

To contribute to the eco-friendly environment we have been sending out our products at room temperature for 27 years. Not only is it good for the environment, but it's also financially much more reasonable and significantly lowers the amount of time it takes to send out the order.

All catalog products are safe to ship and handle at room temperature for ~30 days. So you can be sure to receive a product that works, no matter where in the world you live, and enjoy the peace of mind.

Solis BioDyne as your business partner

Reference:

“ Strategic cooperation with the Solis BioDyne team has been one of the most efficient we have experienced during our COVID-19 diagnostic kits products development. Their room temperature stable mastermix is an excellent product which has helped us to reach higher sensitivity and stability of our qPCR diagnostic kits. ”

PETER KILIAN

Chief Operating Officer at
MultiplexDX

Collaboration partners:

- Leading kit manufactures in Europe with private & government contracts
- Local SME's to branches of global corporations
- Clients from outpatient testing to food safety analysis

Core Expertise:

- High quality development and manufacturing
- Innovation and R&D
- Flexibility and speed of action
- Strategic partnership
- Committed product management, technical support, and R&D
- Help with optimization and implementation

“ Being an R&D driven manufacturer, gives flexibility and time-to-market leverage to come out with a product and solution, that meets your specific needs. With extensive knowledge in our field, we are here to support you all the way, from technical aspects and assay optimization to marketing and sales support. ”

ANGELA VAASA

CEO
