

5x HOT FIREPol[®] Probe qPCR Mix Plus (Capillary)

Cat. No.

Lot. No.

Dispense No.

Expiry date

Description:

HOT FIREPol[®] Probe qPCR Mix Plus (Capillary) is optimized for real-time quantitative PCR assays and contains all the components necessary to perform qPCR, with the exception of template, primers, and probe. The qPCR Mix contains optimized components and HOT FIREPol[®] DNA Polymerase supplied in a proprietary reaction buffer that enables detection of low copy number targets.

HOT FIREPol[®] DNA Polymerase is activated by a 15 min incubation step at 95°C. This prevents extension of non-specifically annealed primers and primer-dimers formed at low temperatures during qPCR setup.

Mix Composition:

- **HOT FIREPol[®] DNA Polymerase**
- **5x Probe qPCR buffer**
- **15 mM MgCl₂**
1 x PCR solution – 3 mM MgCl₂
- **dNTPs**
- **BSA**

Shipping and Storage conditions:

Routine storage: -20°C

Shipping and temporary storage for up to 1 month at room temperature has no detrimental effects on the quality of HOT FIREPol[®] Probe qPCR Mix Plus (Capillary).

Quality Control:

Assay	Result
Amplification efficiency	≥10 ⁵ fold
qPCR reproducibility	passed
ds Endodeoxyribonuclease activity	no
ss Exodeoxyribonuclease activity	no
Self-priming activity	no

Safety warnings and precautions:

This product and its components should be handled only by persons trained in laboratory techniques. It is advisable to wear suitable protective clothing, such as laboratory overalls, gloves and safety glasses. Care should be taken to avoid contact with skin or eyes. In case of contact with skin or eyes, wash immediately with water.

Some applications this product is used in may require a license which is not provided by the purchase of this product. Users should obtain the license if required.
